

UBeesize Bluetooth Camera Remote Shutter for Smartphones

Step 1 Pairing

- A. Turn the remote on with the power switch located at the side. The blue LED light will flicker.
- B. Turn on your phone's Bluetooth setting & connect to "UBeesize" in the available devices list. The blue LED light will stop flickering when connected.

Step 2 Using

Open your phone's camera app. Press the button associated with your phone's operating system (iOS for iPhone, Android for Android Phones).

Note: If your camera does not respond it may not be compatible. In this case download the free app "Camera 360" and use this camera app with the remote.

Step 3 Filming Videos

Switch your phone's camera into Video mode first. Press the button to start/stop recording videos.

Note for Samsung Cell Phones:

1. Go to camera setting, scroll down and tap "Volume keys function" and choose "Record video".
2. Open the native camera, click the iOS button (not android)
3. ~~to start the video, click again to stop the video.~~
to start the video, click the iOS button (Not android)
